

HUNTINGDON IN BLOOM

Judges Report 2010

Huntingdon is a very welcoming town with a very involved community. The many lovely parks and green spaces are all beautifully maintained and are well used by the public. A good example being Hinchingsbrooke Park with its many facilities to meet the public needs, particularly interesting was the Eco friendly education centre.

The Judges thought the bedding schemes throughout the town were an absolute joy with their colours and designs enhancing the many historic facets of Huntingdon, particularly those in and around the Bridge Hotel and river area.

The Hinchingsbrooke School and Hospital schemes are particularly innovative and will hopefully continue to improve and flourish in the future.

Cromwell Park School had some excellent areas for the children to learn and observe wild life.

Lastly but not least, was the Railway Station, the floral decorations, baskets and troughs matched the train operators' colours and the whole effect of colour and cleanliness must make this a joy to use for local commuters, an effort which is to be commended.

This was an excellent entry from Huntingdon in Bloom.

Areas of Achievement:

1. A welcoming town beautifully enhanced by colourful planting schemes.
2. Excellent conservation work, at the River Ouse meadows.
3. Town allotments and the local cemetery are all very well managed.
4. Huntingdon Methodist Church – well done Mrs Hooker!
